

## LEADERSHIP AND ROLES OF RESPONSIBILITY IN THE SIXTH FORM

South Wilts Grammar School Sixth Form places a large emphasis on leadership opportunities for Sixth Form students for two main reasons:

1. We believe that it is essential that students' voices are heard, that their many and varied skills are utilised, and that they play a critical role in shaping the school through their leadership
2. Through leadership, students are able to develop many transferable skills, including those of strategic thinking and creative problem solving, as well as vital life and employability skills, such as working positively with a wide range of people, organisational abilities and communicating effectively

As such, students are able to apply for a hugely variety of different roles, almost as soon as they enter the sixth form, and then assume senior responsibilities in Year 13. The application process, which involves a standard application form, is rigorous and requires students to reflect carefully on how their skills match the description and competencies for the roles required. In addition, for the roles of Head and Deputy Head Girls, applicants are interviewed, give presentations to students and are then chosen by student election.
